

Resolution 15.9.2: Student Success Scorecard - Academic Senate for CA Community Colleges (ASCCC): (San Diego Mesa College Academic Affairs Committee)

1st Reading: September 28, 2015

Mover: Mayasa

Seconded: Milner

Whereas the Student Success Scorecard is the avenue by which student success is measured and

Whereas categories such as "personal/professional development" and "lifelong learning" are not captured by the scorecard and

Whereas this creates an inaccurate picture of student success in the California community colleges

Be it resolved that the Academic Senate of the California Community Colleges (ASCCC) be asked to work to expand the definition of student success and modify the measures used within the Student Success Scorecard to more completely capture student success within California community colleges.

Presented to the Mesa College Academic Senate: September 28, 2015

Approved by the Mesa College Academic Senate: October 12, 2015

Unanimously approved by the following meeting attendees:
