2026-2027 UCLA Major Agreements

Curriculum Summary

Revised Courses:

- AN N EA 12W has been discontinued
- CHEM 17 will no longer be offered starting Fall 2026 and has been removed from Assist
- HIST 3B and 9E have been discontinued

Major Updates:

- **Biophysics BS**- the department is planning to discontinue the major effective Fall 2027.
- **Chicano Studies to Chicana/o BA**- effective Fall 2026, has been renamed from ***Chicana and Chicano Studies*** to ***Chicana/o and Central American Studies BA***
- **Digital Humanities BA**- new major
- **School of Arts and Architecture**- The Design|Media Arts BA has been discontinued, and three new majors—**Design BA**, **Games BA**, and **Computational Art BA**—have been established to replace it.

New minors:

- Real Estate
- Sports Leadership and Management
- Health Humanities
- Environmental Health Sciences

Revised minors:

- Hebrew and Jewish Studies minor is renamed to ***Jewish Studies***

Revised degree and/or admissions requirements:

- **Art History BA-** Two additional lower division course options have been added to the major prep (ART HIS 26 and 34). To better align with UCLA's time periods/topics, the ARTH CCN courses (ARTH C1100/H and C1200/H) will not be on the ART HIS department agreements for course to course articulations. They have been placed into the approved course pool of "Approved Art History Courses" requirement field on the Art History major agreement.
- **Cognitive Science BS**- minor changes to the major prep: CHEM 20L is no longer required for major prep and the additional option of a life sciences series to fulfill the math prep requirement has been added; added the LD Biology courses requirement option for the major prep to mirror Psychology
- **Computational Biology BS**- The statistics major prep has been moved to its own container with an option of choosing one from LIFESCI 40, STATS 10 or STATS 13
- **Disability Studies BA**- additional major prep options have been added. The update does not affect the existing admissions requirements.

- **Portuguese and Brazilian Studies BA**- additional major prep options have been added. The update does not affect the existing admissions requirements.
- **Psychology BA**- the major prep has been revised to 1 course in Introductory physics, chemistry or calculus, and 1 course in quantitative reasoning in statistics, finite math, computer science theory, or programming in C++
- **Public Health BS-** The statistics courses have been removed from the mathematics containers and been given their own container with an option of choosing one from LIFESCI 40, STATS 10 or STATS 13
- **Spanish and Portuguese BA**- additional major prep options have been added. The update does not affect the existing admissions requirements.
- **Study of Religion**: Admissions requirements updated to "Two or more introductory courses in any aspect of the study of religion"

Notes regarding future articulation requests:

- **PHILOS 31 "Logic, First Course"**: If possible, Faculty would like COR to specify how many weeks of the course covered predicate logic

COMM 10 Update:

- UCLA's COMM 10 "Introduction to Communication" (which is not an admissions requirement) is undergoing significant curriculum changes and updates. Therefore, existing COMM 10 articulations will be given a one-year phaseout and is reflected on Assist now. Once the UCLA curriculum is finalized, I will send a call out to CIAC members to submit COR with the guidance of what faculty will be looking for in the COR.
